

Soil Stamina Bus Tour

Sustainable, productive and profitable soils

Soils are the backbone to sustainable agriculture.

Soils with good structure, organic matter and nutrients available to the plants provide the best pasture & greater profits.

*Have you had a good look at your soils lately?
Get down and get dirty!*

The purpose of this day is to hear and see from farmers who are passionate about soil health; understand what makes a soil healthy; and consider on farm options and alternatives for grazing systems. Hear their stories on what has worked well ... and what hasn't.

When	Wednesday 6th May
Where	Meet at Peter Francis Points Arboretum , Coleraine.
What	See John Kane's Farm and hear what techniques he has been using to achieve good soil health over the last ten years. Also visiting Warwick Brown . Warwick has trialled conventional and biological methods on his farm. Hear and see what has worked & what hasn't!
Time	9.00am sharp to 12.30pm (BBQ lunch included)
Cost	NO COST - but booking is essential! Numbers are limited
RSVP Essential	Please RSVP by Thursday 30th April to; Gill or Ian Fry, Phone: 5573 4539 Mobile: 0429 700911 Email: ian.fry@networksw.com.au
